Summary

Frontend Engineer with expertise in React, React Native, and TypeScript, focused on building scalable, high-performance web and mobile applications.

Skilled in optimizing development processes and delivering features that enhance security, accessibility, and user experience.

Work Experience

Mobile Developer · **Security Bank Corporation** Sept 2023 — Present

• Developed cross-platform mobile applications using React Native, Swift (iOS), and Kotlin (Android), ensuring seamless functionality and a consistent user experience across both platforms

• Implemented feature flags with LaunchDarkly, enabling controlled rollouts, A/B testing, and incremental feature releases, which improved risk management and accelerated feedback-driven iterations

• Enhanced the app's security framework by addressing vulnerabilities and implementing robust security measures, contributing to a more secure and reliable user experience

• Spearheaded internal tech talks and workshops on frontend technologies, promoting a culture of continuous learning and fostering innovation within the development team

Front End Developer · **Cloversoft Solutions Inc.** Aug 2022 — Aug 2023

• Implemented internationalization features to support multiple languages, driving a significant increase in user engagement and broadening the app's global accessibility

• Integrated Google Analytics to track user behavior, enabling the collection of detailed data that provided actionable insights for targeted feature enhancements and optimization strategies

• Led performance optimization initiatives across mobile and web platforms, executing strategies that improved load times and responsiveness, resulting in a noticeably better user experience

• Enforced best practices for coding standards and code reviews, establishing guidelines and processes that significantly reduced bugs and enhanced the maintainability of the codebase

Skills

Programming Languages

JavaScript (ES6+), TypeScript, HTML, CSS, Go, Swift, Kotlin

Libraries & Frameworks

React, React Native, Next.js, Expo, Apollo Client, Redux, Jest, Tailwind CSS, Framer Motion

Tools & Platforms

Git, Docker, npm, Vercel, Firebase, GitHub Actions, Datadog, Postman, ESLint, Prettier

Projects

Security Bank App

Mobile app designed for online banking, featuring secure transactions, account management, and a user-friendly interface.

Mexplay

Web and mobile app that offers a dynamic casino experience with a wide range of games and prizes.

Spotify Replay

Web app where users can view their top artists, tracks, and genres on Spotify, and generate playlists based on their personalized data.

Education

Kalayaan College

Bachelor of Science in Entrepreneurship
